

WALKING HOME

The SALVO CONNECT WALKING HOME event 2010 had over 200 people walking in 40mm of rain in an amazing day of weather and community commitment to raising the awareness of homelessness within our region. The support from all agencies, companies, clients, friends and family made the walk and finishing celebrations even greater as we all battled through the wettest conditions possible to give walkers a taste of what some members of our community face throughout winter and on any rainy day, with the exception of being able to go home, get dry, warm and comfortable.

We are also very proud to announce that we have raised just over \$20,000 from the walk and look forward to distributing this money back into the community via our shoe program. The feedback for next year has also been outstanding with everyone keen to support the walk in an even bigger way, so if we can only get a dry warm day, I believe we can get 1,000 people walking together and Walking the Talk.

Look forward to seeing everyone next year - Saturday 12th November 2010 - Queenscliff to Geelong and if there are any questions, feedback, ideas etc please contact me anytime via email
